

AHA-303

AHA-503 / 603

AHA-803 / 104 / 3124

Features :

AHA-3154

- True Sine Wave, double conversion, on-line UPS
- Microprocessor Control, IGBT module with PWM technology.
- Wide input voltage range and generator compatible.
- Special air-flow control, designed for harsh environment.
- DC start and automatic self-diagnostic function.
- LED and LCD display UPS status and internal message.
- Built-in high capacity charger for long backup time.
- Smart computer interface and SNMP management capacity.
- Full protection : overload, over voltage, surge & short circuit, over temperature etc.
- Front door installation and maintenance (8 ~ 15 kVA models)
- User-friendly compact design.
